

U.S. Department of Commerce

National Institute of Standards & Technology Web/Database Development Services

Size: \$1.4 million

Scope

THE CENTECH GROUP, Inc. (CENTECH) provides the National Institute of Standards & Technology (NIST) Technology Services Information Systems Group with Web application and database development services for their public Web sites and their internal systems including CENTECH developed Standards.gov and three (3) additional sites. Our team has also developed and implemented the Web-based applications, databases and Web sites for the Conformity Assessment Bodies, the National Center for Standards & Certification Information and the Department of Commerce's Standards Developing Organization. The applications and sites interface with SQL Server, Oracle and Microsoft Access databases operating on Window Server platforms.
