

General Services Administration (GSA) Connections II (CNX II) Indefinite Delivery/Indefinite Quantity (IDIQ) Contract

Scope of IDIQ: Includes all labor and equipment necessary to support communications and networking solutions at the local area network (LAN), building, campus, and enterprise level. Labor categories specify both professional and technical expertise to support the full solution life cycle, including, but not limited to, analysis, planning, design, specification, implementation, integration and management of network services and equipment. Also includes any new labor and equipment that may emerge in the marketplace for providing comprehensive telecommunications over the life of the contract.

Benefits of Using the CNX II IDIQ:

- I Simplified competition process, and extremely fast contract modifications for adding new equipment
- I Performance-based contracting allowing the customer to hold their vendors accountable while fostering lower costs and increased quality
- I Ability to draw value from existing contracts while adding more provisions resulting in less risks and more options
- I Commercial off-the-shelf, customized solutions or a strategic combination of both
- I Global availability
- I Supply chain risk management
- I Sustainable procurement options
- I End-to-end solutions provisions by combining local and long-distance contracts

THE CENTECH GROUP, Inc. (CENTECH®) has been selected as a prime contractor under the GSA's CNX II contract to provide telecommunications/information technology (IT) solutions.

Team CENTECH integrates the successful expertise of (8) small and (9) large experienced and qualified companies with an impressive array of original equipment manufacturers (OEMs) to provide GSA CNX II customers with efficient, effective, technically superior, and cost-competitive telecom/IT solutions.

I CNX II Solutions Include:

- Defining requirements
- Assessing alternatives
- Designing solutions
- Installing and operating equipment, including cabling, routers, and switches
- Support services, including project managers, technicians, and Web architects
- Customized solutions, including network engineering and operations support

I Additional Capabilities

- Legacy voice, data and video teleconferencing solutions
- IP and converged solutions
- Cable and wire management
- Billing and account management
- Customer service and technical support

How to order - You have two options to order from Connections II. Your agency competes and awards the task order or GSA competes and awards the task order. The government Web site for the Connection II vehicle is located at www.gsa.gov/connectionsii. This site provides templates and tools as well as ordering instructions that walk you through an easy to follow six (6) step process on how to:

1. Fill out the delegation of procurement form (DPA)
2. Assess your agency's requirements
3. Develop the statement of work
4. Issue the solicitation
5. Evaluate proposals
6. Make the award and manage the task order
