

# NETCENTS-2 NetOps Infrastructure Small Business Set Aside Programs & Initiative

The Network Centric Solutions (NETCENTS)-2 (NC2) Services Contract supports initiatives and programs such as:

- ▶ Enterprise Information Technology (IT) Acquisition (EITA)
- ▶ Distributed Common Ground System (DCGS)
- ▶ Air Force Surgeon General
- ▶ SPACECOM/Unicom
- ▶ Expeditionary Combat Support System (ECSS)
- ▶ Defense Enterprise Accounting & Management System (DEAMS)
- ▶ Net-Centric Enterprise Solutions (NCES)
- ▶ Defense Information System Network (DISN)
- ▶ Defense Switch Network (DSN), Defense Message System (DMS)
- ▶ Air Force System Network (AFSN), Secret Internet Protocol Router Network (SIPRNet)
- ▶ Non-Classified Internet Protocol Router Network (NIPRNet)
- ▶ Defense Research & Engineering Network (DREN)
- ▶ Global Command & Control System (GCCS)
- ▶ Global Combat Support System (GCSS)
- ▶ Combat Information Transport Systems (CITS) & the Air Force's Voice Switching Systems (VSS)
- ▶ Theater Battle Management Control System (TBMCS)
- ▶ Air Operations Center (AOC) Weapon System (WS)
- ▶ Air Force Satellite Control Network (AFSCN)
- ▶ Theater Deployable Communications (TDC)

...others

# NETCENTS-2 Small Business Set Aside Requirements

- ▶ Perform Network Infrastructure Requirements Analysis and Design
  - Survey
  - Evaluate
  - Engineering
  - Voice, Data, or Video Networks
- ▶ Network Infrastructure Installation
  - Site Survey
  - Pre-Installation Briefing
  - Site Preparation
  - Inside & Outside Plant
  - Installation/Test & Integration
  - Security
- ▶ Network Infrastructure Maintenance
  - Provide Worldwide Maintenance Solution
  - Per-Call Maintenance
  - Provide Onsite Per-Call Maintenance
  - Standard Per-Call Maintenance (SPCM)
  - Cable Plant Maintenance
  - Rapid Response Per-Call Maintenance (RRPCM)
- ▶ Network Infrastructure Operations
- ▶ Collaboration
  - Enabling Synchronous Communication & Asynchronous File Sharing
- ▶ Software Packaging Installation
  - Author Installation & Deploy Software
- ▶ Operations Support
  - Provide Operations Support for Both Contractor-Installed & Government-Fielded Systems or Networks
  - Network Management/Network Defense (NM/ND) – Provides Standard Base-Centric & Network Operation Support Center NOSC-Centric Fault, Configuration, Performance, & Security Management
- ▶ Transport – Provide Integrated Network Capabilities & Resources Managed & Configured Information Transfer Utility for ConstellationNet Subscribers
- ▶ COOP (Continuity of Operations)
  - Provide Disaster Planning
- ▶ Global Information Grid Support
  - Provide Support to the Globally Interconnected, End-to-End Set of Information Capabilities
