

## General Services Administration (GSA) Professional Services Schedule (PSS) – formerly MOBIS Multiple Award Schedule (MAS) Contract Vehicle

**Scope of MAS:** The previous Schedule 874 formally known as MOBIS is now part of this contract and encompasses services that are advisory, problem-solving, and intellectual in nature and require advanced subject matter knowledge. One of the categories under PSS is Business Consulting Solutions which includes a full range of management and consulting services including program support that can improve a federal agency's performance, and help customers meet their mission goals. Business services range from consulting, facilitation, quality assurance, analysis, strategy formulation, advisory and assistance, research, and training to acquisition, and as mentioned, program support. Under CENTECH's contract, we fulfill services including: Integrated Business Program Support Services, Integrated Consulting Services; Training Services (Off-the-Shelf Training Devices and Training Materials); and Acquisition Management Support.

In addition, GSA offers government-wide blanket purchase agreements for Performance Management/Continuous Process Improvement (PM/CPI) services.

### Benefits of Using the GSA PSS MAS:

- I Provides federal customers a more streamlined approach to procuring complex professional services requirements while offering shorter lead times, lower administrative costs, more flexibility, and the ability to retain control of their own procurement
- I Obtain total solutions to complex professional-services requirements from a single source
- I Reduce costs associated with managing various Schedules
- I Increase program efficiency through fewer contracts and solicitations
- I Easy to use sample Request for Quotes templates and sample nondisclosure statements online for your use
- I An online Acquisition Support Services Ordering Guide making the process easy for the user
- I Available e-tools to guide your process including Acquisition Gateway, GSA Advantage, the GSA eLibrary, eBuy and eOffer/eMod
