CYBERSPACE COMMAND READINESS INSPECTION GIVES CENTECH® TOP RATINGS AMONG U.S. AIR FORCE CONTRACTORS

Falls Church, Virginia, June 19, 2014 – Results of the yearly Command Cyberspace Readiness Inspection (CCRI) performed by the Defense Information Systems Agency (DISA) under the direction of the U.S. Cyberspace Command were recently announced and reported THE CENTECH GROUP, Inc. (CENTECH) received “Excellent” ratings for their work at the 26th Network Operations Squadron (26 NOS) performing a full range of cyberspace operations and maintenance and cyberspace security services in support of all U.S. Air Force (AF) Major Commands and Combatant Commanders at Maxwell Air Force Base – Gunter Annex in Montgomery, Alabama.

The results of the DISA inspection saw CENTECH score 3.5 points higher than any other unit in the Air Force in the Secret Internet Protocol Router Network (SIPRNet) technology enclave and tied for the highest in the 67th Cyberspace Wing for the Non-secure Internet Protocol (IP) Router Network (NIPRNet) technology enclave.

The lead inspector for the DISA team stated in the report, “A well trained, capable, and focused team at the 26 NOS is closely adhering to U.S. Department of Defense (DoD) Standards. Their efforts have resulted in reduced numbers of vulnerabilities and have positioned them to continue ongoing vulnerability management.”

USCYBERCOM and representatives for the 24th AF were quoted as saying the 26

NOS and its team “set a record” for these inspections, and they expressed their sincerest gratitude “for the education on how the AF does enterprise security” and “for taking our recommendations seriously over the years.”

The yearly inspection covers three major categories including Cyberspace Network Defense Directives; Technology Areas and Contributing Factors in addition to multiple subcategories of oversight. While normally a one week process, the 26 NOS review was unique in nature due to the fact that the unit’s mission covers the AF Enterprise Network worldwide. This CCRI included a two week inspection of configuration files and records followed by a week of personal inspection by the DISA team.

“Our team, which includes subcontractors Harris IT Services and Leidos Holdings Inc., has received ratings and has ongoing performance that clearly identifies CENTECH as a premier performer and a leading player in the cyberspace technical arena,” said company Founder, Owner, and Chairman of the Board Fernando Galaviz. “Our solid performance is the result of having the processes, the structure, the discipline, the preciseness of our management and the excellence of our technical staff.”

THE CENTECH GROUP, Inc. is a performance-based service contractor with program management expertise that specializes in systems and service solutions for federal, military and civilian programs. CENTECH is a proven, successful provider of systems/solutions on over 4500 federal government contracts and 150 mission critical software development projects. Operating under the principles of Trust, Quality, Service and Value, CENTECH is ISO 9001:2008 and ISO/IEC 20000-1:2011 certified and CMMI Maturity Level 3 appraised. Our technical capabilities include business operations support, engineering services, computer data center operations, help desk systems and services, training/knowledge transfer systems and services, logistics support systems and services, network and infrastructure services, program and acquisition management support services, security systems and services, software development and maintenance, systems engineering/technical assistance, test and evaluation services and Web solutions and services.
